It was submitted to the Academic Council that the Standing Committee on Professional, Vocational and Continuing Education Programmes (SCPVCE) in its 18th meeting held on 18.8.2021 deliberated on the programme structure of MVoC Programme as per the requirement of Tourism and Hospitality Programme.

The proposed MVoc Tourism and Hospitality Management Programme has been conceptualised in a multidisciplinary context, taking both tourism and hospitality in a holistic and integrated approach. It emphasizes practical application, industry exposure and research-based study rather than only theoretical knowledge. This will enable students to inculcate skills for meeting the needs of the tourism and hospitality industry for employment. Post graduates from this programme will find opportunities in organised tourism and hospitality sector such as such as Travel agencies, Tourism operators, Airport Management, Tour managers, Travel consultants, Hotels and Catering industries as Manager, etc.

The programme is conceptualized based on the NEP 2020 recommendations for vertical mobility of UG students and as per the recommendations under NSQF and guidelines issued by the UGC. It will be executed in four semesters with a minimum of 02 years and a maximum of 04 years duration with a total of 120 credits (30 credits per semester) as per the UGC guidelines. The programme is pitched at the NSQF level 8 & 9. Students completing the 1st year of their studies successfully and intending to exit will be awarded Post Graduate Diploma (NSQF level-8) and on completion of the 2nd year will be awarded Master Degree (NSQF Level-9).

The Committee deliberated on the fact that that programme could focus more on creating spaces for individuals with disabilities-both, for awareness in the service industry and in the student profile. The school follows the same reservation norms for students with disability as per other schools in the university. In addition, there are courses in SVS that do focus on creating inclusive spaces.

Gender roles and a larger discussion on marginalization within the industry could also be a point of consideration and discussion in the curriculum/courses. These could be in form of readings, workshops, awareness of policies related to ICC, interaction with the Equal Opportunity Cell and so on. In the BVoC programme, there are courses, especially in the General Education Component that do address issues related to diversity and inclusion. Further, induction of marginalised students into the programme also depends upon the admission policy of the university.

After due deliberations, the SCPVCE recommended to consider the Programme Structure of the MVoC Tourism and Hospitality Management as placed at **Appendix-14**.

Decision : In exercise of the powers conferred under Section 24(1) sub clause (vi) and (xiv) of Act of the University and Statute 12(1)(a), the Academic Council considered and resolved to approve the programme structure for the MVoC programme in Tourism and Hospitality Management as recommended by the Standing Committee on Professional, Vocational and Continuing Education programmes (SCPVCE).

The Committee on SVPVCE further recommended the following:-

- A question was raised regarding the rationale for the inclusion of Spanish language in the programme. It was appraised to the members that the rationale for including the Spanish language for the BBA programmes as the language is most widely spoken languages among the European. Additionally, in most of the emerging markets in Latin America, Spanish is the language mostly used. The initial plan of the school was to offer both Chinese and Spanish language to students. However due to the pandemic, it was not feasible. Next, year, the school may consider offering both languages.
- The courses should focus on creating more inclusive work spaces for including diverse genders, disability and so on. Issues of ethics could be included, for example, Case study of Byjus etc.
- With respect to introducing Coursera course as MOOG course on digital marketing - it would be helpful to check how the courses of Coursera map out in comparison with the AUD assessment structure and timeline.
- The content of the course on 'Public Policy and Social Sector Reforms in India' maybe beyond the time that would be required to transact the course within a semester. Keeping in view of the content load for a 4 credit course, it was suggested that some sections could be reduced. Some of the content could be transacted via assignments or field based engagement keeping in mind concepts of equity, justice, democracy as a core.

Matters for Information

Agenda 24.18 : To report the matter pertaining to the review of grades of MPhil Dissertation of Ms. Priyanka Nirwan student of MPhil Women's and Gender Studies, School of Human Studies

Ms. Priyanka Nirwan (Enrollment No. S184CWG04) student of MPhil Women's and Gender Studies, had appealed the School of Human Studies (SHS) to review her grades of MPhil Dissertation. The student had reported alleged procedural lapse and sent a request to the school on June 25th, 2021 for re-evaluation of her MPhil Grade B plus. The appeal filed by the student was discussed in the emergency RSC (Research School Committee) meeting of SHS, held on 1st July 2021 wherein, following observations were made:-

1. The committee observed that the procedural lapse on the part of the school that the student has put forward is not an intentional or inordinate delay, but it was an extra ordinary and difficult time of Covid-19 Pandemic and therefore it is not the basis on which re-examination can be warranted.
2. Apart from RAC members and supervisor, the student's dissertation was examined by two independent experts (one internal and one external) and the examiners had given the satisfactory reports after which the viva voce was conducted and graded and there doesn't seem any delay in that process. Therefore, there is no reason for asking for re-evaluation as it has been independently evaluated by two experts and also there is no provision in the MPhil Research regulations 2017 for reevaluation of submitted dissertation after via-voce. Hence there will be no change in dissertation grade i.e. B plus.

The minutes of the RSC were further deliberated by the Chair, SCR, wherein the Chair SCR observed that i) there is no provision in the M.Phil Research Regulations 2017 for reevaluation of submitted dissertation after viva voce. Hence, there will be no change in dissertation grade i.e., "B+" ii) As per the submitted time line, all examiners report of dissertation process of viva-voce did take longer than expected time because School Dean, office staff, the examiner, supervisor of the student and the student (Priyanki Nirwan) were all down with Covid during the month of April and May, 2021. Hence, there is no procedural lapse in the matter of Ms. Priyanka Nirwan.

The recommendations of the Research Studies Committee (RSC) and the observations of the Chair, SCR were approved by the Competent Authority.

Decision : The Academic Council noted the above information.

Agenda 24.29 : To consider the extension of AUD stipend for Non- NET PhD students

It was submitted to the Academic Council that the University provides minimum financial support to MPhil and PhD students @ 5000/- and 8000/- per month from academic year 2012. After a detailed discussion on status of stipends of AUD PhD students and in pursuance of the 27th meeting of the Board of Management dated 30th September 2019, it was decided to enhance the stipend to 10,000/- and 16,000/- per month for MPhil and PhD students respectively as stipend to the research studies students- MPhil and PhD who are not covered under UGC, ICSSR or other scholarships or fellowships.

As per the present PhD Regulations, the normal registration period is for five years and our present coverage under this scheme is only for three years. It is proposed that the coverage may be extended to the full tenure of PhD. Several other Universities have instituted mechanism to support their research scholars throughout this registration period. Some of the other universities (Delhi University and Banaras Hindu University) indicate that they are providing stipend till 4 years, but these are connected to old UGC regulations in which maximum PhD registration normally may be 5 years.

The proposal of extending the stipend till 4 years for now and for constituting a Committee to explore the possibility of extending the non-NET stipend till the full registration period, as per the AUD PhD Regulations, 2021 keeping in view the welfare of the University PhD scholars, was placed before the Academic Council for consideration and deliberations.

Decision : In exercise of the powers conferred under Section 24(1) sub clause (xiii), the Academic Council considered the matter and resolved to approve the extension of AUD stipend for Non- NET PhD students and to constitute a Committee to explore the possibility of extending the non-NET stipend till the full registration period, as per the AUD PhD Regulations, 2021 keeping in view the welfare of the University PhD scholars.
