# Spatial Experiences and Visual Identity

**While enabling exchange of intergenerational ideals and beliefs, the new campus could be imagined as a diverse set of 'social' spaces allowing intellectual and emotional stimulation.**

- **Spaces for Collective Engagement**
- **Spaces for Self-Growth**
- **Spaces for Knowledge Production and Dissemination**
- **Spaces for Community Living**

# Sustainable Campus: An Energy & Environmental Brief

The AUD campus design should be able to clearly demonstrate how a congenial and comfortable working environment can be combined with sustainable use of energy, building materials and other resources in a demonstrably optimal, efficient and sustainable manner. These must be demonstrated in planning, services, materials, construction, functions, use and maintenance.

**The campus design should be able to highlight the application of cutting edge and locally relevant environmental sustainability concepts and practices.**

# Sustainability indicators

**AUD is committed to demonstrate holistic application of sustainability ideals and practices in:**

## **Energy**

**Energy conservation, Energy efficiency, Renewable and alternative energy**

## **Water**

**Water conservation, Water efficiency, Water reuse and recycling**

## **Land Use and Space Utilization**

**Campus and building design, Open and Built spaces**

## **Material Flows**

**Sustainable procurement standards: Solid waste management.**

**We want the best of your imagination, expertise, excellence and commitment**
