Proposal

LEAPY FEBRUARY

An extra day to work in February means more time to execute exciting activities at the Centre. With the aim to create more entrepreneurs from AUD, ACIIE reached out to the students through interactive sessions. We also ensured that during AUD@City students engaged with us through Young Change Maker Award 2020. The activities were not just restricted to the Kashmere Gate campus, ACIIE conducted 3 day workshop on Design Thinking with B.Voc students. We were also invited to interact with B.Voc students during the symposium on "Entrepreneurs in Childcare: Possibilities and opportunities in Delhi".

3 ACIIE was invited by the School of Vocational studies to take a session with B.Voc ECCME students on "Writing a Business Proposal" during a one day symposium organised on "Entrepreneurs in Childcare: Possibilities and opportunities in Delhi". Few of the students were excited to start their ventures post graduation and ACIIE is ready to support them.

1 As part of our outreach activity, an interactive session with 20 students was held at the KG Campus. There were 2 interesting part of this activity: First, the venue was the VC lawn (an open space) and second, Prof. Sharique and Pro VC - Prof. Jatin Bhatt personally interacted with the students. Students were provoked with questions around ideation and entrepreneurship. One of the interesting insight was that students really fall short of generating ideas to solve problems.

2 AUD@CITY 2020 was an amazing event organised by the students. ACIIE created a micro event during AUD@CITY 2020, named "Young Changemaker Award 2020", wherein awards are given by ACIIE to the AUD students who aspire to solve socially relevant problems. 10 students (team) presented their ideas to a panel on 21st Feb. 4 selected winners were given certificates and

UPCOMING ACTIVITIES
